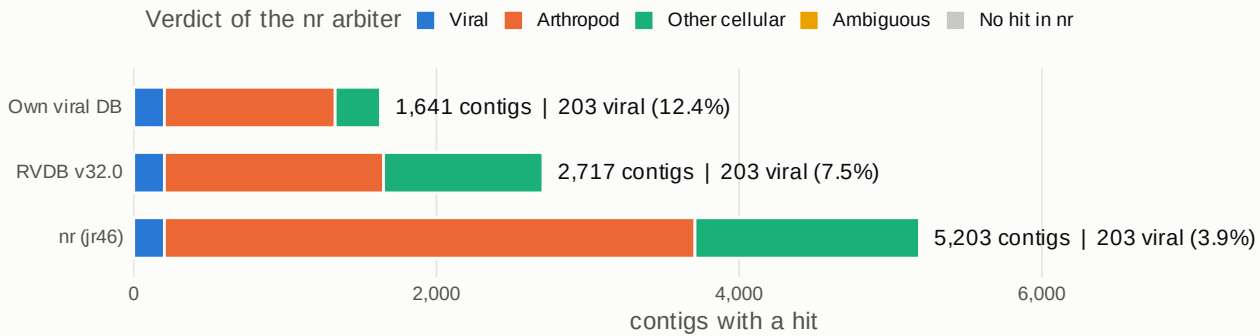
Most hits in viral-only databases are not viruses

Contigs with a DIAMOND hit in each database, out of 6,004 union contigs, coloured by what nr says they are



Same query for all three runs. Own viral DB and RVDB: blastx --very-sensitive, e <= 1e-3. nr (jr46): blastx --sensitive -e 1e-5 -k 25, then the arbiter (viral if best viral bitscore >= 1.1 x best cellular). Data: datos_diamond_v1.
